## FOREWORD

This Minerals Management Service (MMS) Handbook contains the delegations of authorities for managing and administering the Offshore Program.

With the approval of this handbook, specific Offshore Program authorities are redelegated in Chapter 3. For reference purposes only, authorities retained by the Associate Director for Offshore Energy and Minerals Management (AD/OEMM) or at a higher approval level are also included in this handbook. (See Chapters 1 and 2.)

Changes or additions to this handbook should be submitted by memorandum to the AD/OEMM with a copy to the Associate Director for Administration and Budget. (See MMSM 210.1.8, Procedures.) A change or an additional redelegation is not effective until it is published in the delegation series of the MMS directives system.

Questions regarding this handbook or the basic manual (MMSM210.1) may be directed to the Offshore Directives Liaison Officer.
