

**Bureau of Ocean Energy Management
Gulf of Mexico Region
Significant Outer Continental Shelf Sediment Resources**

West Delta Area (Sandy Point Channels)

Legend	
	Significant OCS Sediment Resources
	ITL Sand and Gravel Blocks
	Planning Area Boundary
	Protraction Map Boundary
	Offshore Administrative Boundary
	Bathymetry (meters)
	Active and Proposed Platforms
	Destroyed Platforms
	Removed Platforms
	Well Tops
	Perm. Abandoned Well
	Temp. Abandoned Well
	Active Pipelines
	Proposed Pipelines
	Abandoned Pipelines
	Submarine Cables
	Umbilicals

Geographic Coordinate System, North American Datum of 1927

The Notice to Lessees and Operators (NLT) concerning Significant Outer Continental Shelf (OCS) Sediment Resources in the Gulf of Mexico recommends avoidance of significant OCS sediment resources to the maximum extent practicable during operations involving structures, drilling rigs, pipelines, umbilicals, and/or cables. Gulf of Mexico Region NLTs are available on the internet at www.boem.gov. BOEM does not warrant the accuracy of this map or assume any responsibility or liability for any reliance thereon. This map is not intended for navigational purposes or as a legal document for leasing purposes.
