

8 CONSULTATION AND COORDINATION

8.1 PROCESS FOR THE PREPARATION OF THE 2012-2017 OCS OIL AND GAS LEASING PROGRAMMATIC ENVIRONMENTAL IMPACT STATEMENT

8.1.1 Draft Proposed Program and Draft PEIS

Preparation and review of the draft programmatic environmental impact statement (PEIS) closely parallels that of the 2012-2017 Outer Continental Shelf (OCS) Oil and Gas Leasing Program (the Program) decision documents. Comments received on the program decision documents are also reviewed for consideration in the preparation of the PEIS.

In January 2009, the previous Administration published a Draft Proposed Program (DPP) and a Notice of Intent (NOI) to prepare a PEIS that requested comments from States, local governments, Native groups, tribes, the oil and gas industry, Federal agencies, and other interested individuals and groups and set out a schedule for scoping meetings in the areas of the DPP. In February 2009, the Secretary of the Interior extended the comment period on the DPP and postponed the scoping meetings to allow time to consider further public comment before determining which areas in the DPP should be scoped and analyzed for consideration in subsequent program proposals. A preliminary revised Program was proposed on March 31, 2010.

8.1.2 Scoping for the Draft PEIS

An NOI to prepare and scope the Program PEIS was published in the *Federal Register* (75 FR 16828) on April 2, 2010. That NOI invited the public to provide comments on the scope and content of the PEIS and identified as many as 14 locations where public scoping meetings could be held to obtain comments.

On June 30, 2010, Secretary of the Interior Salazar announced that the public scoping meetings would be postponed in response to the Deepwater Horizon incident. The additional time would be used to evaluate safety and environmental requirements of offshore drilling. On December 1, 2010, Secretary Salazar announced an updated oil and gas strategy for the OCS. The new strategy continued a moratorium for areas in the Eastern Gulf of Mexico (GOM) and eliminated the Mid-Atlantic and South Atlantic Planning Areas from consideration for potential sales and development through the 2017 planning horizon. The Western GOM, Central GOM, Cook Inlet, Chukchi Sea, and Beaufort Sea OCS Planning Areas would continue to be considered in the PEIS. Subsequently, on January 4, 2011, a Notice of Scoping Meetings for the proposed 2012-2017 OCS oil and gas leasing program PEIS was published in the *Federal Register* (76 FR 376) and a second scoping period was conducted from January 6, 2011, through March 31, 2011. During this scoping period, public scoping meetings were scheduled for 12 locations in the GOM, Alaska, and Washington, D.C. These meetings were held to garner significant issues and public concerns for inclusion in the PEIS. In addition, the Bureau of

1 Ocean Energy Management (BOEM) received comments through the mail and maintained a
2 public website to accept electronic scoping comments.

3
4 BOEM established cooperating agency status with the U.S. Department of Commerce
5 National Oceanic and Atmospheric Administration (NOAA), the State of Alaska, and the Alaska
6 North Slope Borough (NSB). They reviewed preliminary sections of the PEIS.

9 **8.1.3 Commenting on the Proposed Program and Draft PEIS**

10
11 Comments will be requested during a 90-day period on the proposed Program and a
12 60-day period on the associated draft PEIS. Based on the consideration and analysis of
13 comments, a Proposed Final Program and a Final PEIS will be prepared. The Proposed Final
14 Program will be submitted to the President and to the Congress, along with an explanation from
15 the U.S. Department of the Interior (USDOJ) concerning the reasons for the decision.

18 **8.2 DISTRIBUTION OF THE DRAFT PEIS**

19
20 Copies of the draft PEIS will be distributed prior to publication in the *Federal Register* to
21 Federal, State, and local agencies; to interested groups and individuals who have been involved
22 in the preparation of the Program and the PEIS process; and to coastal libraries.
