I request all records concerning all logs of correspondence that record letters from members of Congress to your bureau/office. The logs should detail the correspondence's control number, the date it was received, what congressional office sent it and its subject. Please redact constituents' names and other personal information detailed in these logs in order to expedite this request. 2. I request all documents related to your bureau/office's employees' ethics waivers in resolving financial conflicts of interest. These documents are maintained by federal agencies and are released to the public upon request under 18 U.S.C. 208. 3. I request all records concerning Freedom of Information Act request logs maintained by your bureau/office. The FOIA logs should detail the request's control number, the date it was received, who made the request, what company or organization they were from and the request's subject. 4. I request a list of "special government employees" (SGEs) employed by your bureau/office. A SGE is an agency employee that performs temporary duties, with or without compensation, for not more than 130 days during any period of 365 consecutive days, as defined in 18 U.S.C § 202. Please consider each numbered bullet point a separate FOIA request, with each requiring its own control number and response.  |
| DOI-BOEM-2022-000066 | 10/04/2021    | 10/06/2021  | Sheets, Connor  | Los Angeles Times               | Closed         | This is a very narrow request for a limited amount of materials submitted by a company in 2011. In 2011, Beta Operating Company (aka Beta Offshore) submitted a proposal to replace certain pipelines off the coast of Southern California. I've attached that proposal. Also, here is a link to that proposal and a response from the Bureau of Ocean Energy Management, Regulation and Enforcement: <a href="https://www.boem.gov/sites/default/files/uploadedFiles/BOEM/Environmental_Stewardship/Environmental_Assessment/2011-09-02%20Final%20Beta%20Offshore%20Pipeline%20FONSI%20and%20EA.pdf">https://www.boem.gov/sites/default/files/uploadedFiles/BOEM/Environmental_Stewardship/Environmental_Assessment/2011-09-02%20Final%20Beta%20Offshore%20Pipeline%20FONSI%20and%20EA.pdf</a> On page 6 of this document, Beta Offshore describes a "set of DVDs" and a map that it submitted to the Bureau of Ocean Energy Management, Regulation and Enforcement during the pre-approval process for the pipeline replacement project. I've excerpted the information about the DVDs and map from the above-linked document below: "In addition to the project description (Beta Offshore, LLC, 2010), Beta Offshore submitted a set of DVDs containing a remotely operated vehicle survey of the seafloor, including sonar sweeps, which were used to detect seafloor anomalies such as hard bottom. A map was also submitted which depicted the project area, the proposed location of the laydown area of the new replacement pipelines, known hard bottom areas, the location of existing power cables, pipelines, and other features." This request is for the above-mentioned "set of DVDs" and map. It is a narrowly focused request seeking only those specific materials. I hope this can be accelerated due to the timely importance of these materials in light of the recent oil spill. I appreciate your attention to this matter. I am simultaneously submitting this request to the BSEE because it is unclear which of the two agencies would have retained these records. Thank you in advance.  |

Specifically, I hereby request that for the above-listed Entities and Oil Facilities, BOEM provide access to any and all of the following documents and records, including correspondence, notices, permits, applications, certifications, waiver or exemption requests, notes, calendar entries, emails, power point presentations, agendas, photographs, case files, and any other documents that refer, relate or pertain to the following: 1. Any leases, rights of way, easements, permits, licenses, agreements, contracts, or other documents issued or pertaining to the Oil Facilities and/or the Entities from and including October 1, 2021; 2. Any and all development production plans, exploration plans, or other plans, including any revisions or supplements thereto, containing details of proposed sidetracking, lateral drilling, or other well expansions related to the Oil Facilities from and including October 1, 2021; 3. Any and all Notices to Lessees pertaining to the Oil Facilities or otherwise issued to the Entities since and including October 1, 2021; and 4. Any and all documents related to additional security requirements, including, but not limited to, any Decommissioning Trust Agreements, with respect to the Entities and/or the Oil Facilities since and including October 1, 2021. Any reference in this request to BOEM includes, but is not limited to, consultants, employees, officers, and attorneys and any other person or entity contracted to do business on its behalf. Given the rapidly evolving nature of the October 2021 Orange County oil spill and the severity of its impacts on the local environment and community, including Coastkeeper's members, Coastkeeper kindly requests BOEM provide access to responsive documents on an ongoing basis through November 1, 2021 in an effort to avoid the need for multiple and duplicative requests. Coastkeeper greatly appreciates BOEM's cooperation in this regard. To minimize costs and the imposition on BOEM staff time and resources, Coastkeeper requests to receive the copies electronically, where available. In addition, if costs are significant, Coastkeeper staff is available to inspect and scan documents ourselves. Further, if BOEM can provide us with the requested information |

The National Marine Fisheries Service ("NMFS") is investigating these strandings as an Unusual Mortality Event ("UME"). I write on behalf of Sea Shepherd Legal ("SSL") with a request for records maintained by NMFS relating to its investigation. Consistent with SSL's mission and pursuant to 15 C.F.R. Part 4, Subpart A and the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, I respectfully request the following records from NMFS: 1. All records describing the procedures NMFS and/or the Working Group on Marine Mammal Unusual Mortality Events ("Working Group") followed to investigate UMEs prior to 2020. 2. All records describing any changes to the above-referenced procedures made in 2020, including changes made in response to the coronavirus  |
