**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act**

On July 14, 2020, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Massachusetts, in the lawsuit entitled *United States v. 280 Salem Street, LLC et al.*, Civil Action No. 1:20-cv-11321.

The United States filed this lawsuit under Sections 106, 107, and 113 of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9606, 9607, and 9613. In its complaint, the United States seeks (a) recovery, under Section 107(a) of CERCLA, 42 U.S.C. 9607(a), of response costs it incurred in conducting response activities in connection with the release or threatened release of hazardous substances into the environment at or from Operable Unit 4 ("OU4"), also known as the "Southwest Properties," of the Wells G&H Superfund Site, located in Woburn, Massachusetts (the "Site"); (b) a declaratory judgment, under Section 113(g)(2) of CERCLA, 42 U.S.C. 9613(g)(2), holding that all defendants will be liable for any further response costs the United States may incur as a result of a release or threatened release of hazardous substances into the environment at or from OU4; and (c) injunctive relief under Section 106 of CERCLA, 42 U.S.C. 9606, requiring that Defendants take action to abate conditions at or near OU4 that may present an imminent and substantial endangerment to the public health or welfare or the environment because of actual and threatened releases of hazardous substances into the environment at or from OU4.

Under the proposed consent decree, three defendants (the "Performing Settling Defendants"), which allegedly owned or operated facilities in OU4, will perform a remedial action estimated to cost approximately \$19.1 million and pay 80 percent of EPA's future response costs, including costs of overseeing this cleanup work.
