The diagram shows a rectangular domain with a curved interface separating two regions, A and B. The domain is defined by the following coordinates:

- Left boundary: $X = 0$
- Right boundary: $X = 572\,000.000$
- Bottom boundary: $Y = 0$
- Top boundary: $Y = 2\,779\,200.000$

The interface is defined by the following points:

- Point 1: Bottom center of the domain.
- Point 2: A point on the interface, slightly to the right of the center.
- Point 3: A point on the interface, further to the right.
- Point 4: A point on the interface, near the right boundary.
- Point 5: Top right corner of the domain.

Region A is the area above the interface, and Region B is the area below the interface.
