

The boundaries of the regular blocks are 4,800 international meters on a side and contain 2,304 hectares. The regular boundaries are defined in terms of X and Y coordinates of the Universal Transverse Mercator Grid System based on the Goochke Reference System.

The areas of the fractional blocks abutting the Continental Shelf Boundary and limit of Protraction have been determined and are as depicted on the Supplemental Official OCS Block Diagrams (SOBDs). Consult the SOBDs for official descriptions and approval dates.

The areas of the fractional blocks abutting the Continental Shelf Boundary and Limit of Protection have been determined and are as depicted on the Supplemental Official OCS Block Diagrams (SOBDs). Consult the SOBDs for official descriptions and approval dates.

The 200 nautical mile Exclusive Economic Zone Limit shown is from NOAA

(Oct, 2007) see: <http://chartmaker.ncd.noaa.gov/csdl/eez.htm>. The areas of the fractional blocks abutting this line have not been determined.

Areas and dimensions of the irregular blocks along the zone boundaries are as indicated.

Copies of these diagrams and other information may be obtained at the appropriate MMS OCS Region, or from <http://www.mms.gov/d/maps.htm>.
