

The first page of any filing should include the docket number P-6414-001. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Project Facilities:* The project works include: (1) an intake structure; (2) a 12-inch-diameter, 1,950-foot-long penstock; (3) a powerhouse containing two 60-kilowatt generating units; and (4) associate electrical and transmission equipment. The project has not operated since July 2013.

m. *Description of Proceeding:* Douglas Water Power Company was issued an exemption from licensing on December 15, 1982. Article 5 of the exemption requires the exemptee to obtain the right to use or occupancy of any Federal lands from the administering Federal land agencies and the Commission has the right to revoke the exemption if these permissions are not obtained. In addition, Article 1 grants the Commission the right to conduct investigations with respect to any acts, complaints, facts, conditions, practices, or other matters related to the construction, operation, or maintenance of the exempt project. If any term or condition of the exemption is violated, the Commission may revoke the exemption. The Commission's Division of Dam Safety and Inspections requested information on the project on February 3, 2014, August 1, 2018, and August 31, 2024. To date none of the requested information has been filed. On April 7, 2025, the U.S. Forest Service, filed a copy of a Notice of Termination Order to Cease Occupancy and Use that ordered the exemptee to cease occupancy and use of the hydroelectric facility on Forest Service Lands. The Commission's Division of Hydropower Administration and Compliance also issued letters, on May 14, 2025 and July 17, 2025, requesting follow-up, and have not received a response. On August 19, 2025, the exemptee was notified that the Commission was going to initiate termination of the exemption by implied surrender.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

q. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005.
