RE: Edith Development and Production Plan

Dear Dale Bradley:

Reference is made to your submittal entitled "Update to Development and Production Plan and Environmental Report. Conversion of Gross Pipeline and Platform Power Reconfiguration," dated November 2024 and revised January 2025 with the most recent update received by the Bureau of Ocean Energy Management (BOEM) on January 28, 2025. Your submittal addresses DCOR, LLC's (DCOR) request for a revision to your Development and Production Plan (DPP) to convert the existing six-inch (6") gas pipeline (segment #3720296) to transport Gross Fluid Production (GFP) between Platform Eva (State lease PRC 3033) and Platform Edith (OCS-P 0296) as well as the use of eight (8) gas-fired microturbines installed on Platform Edith.

BOEM hereby approves your January 2025 submittal, attached to this letter as Appendix A, as a revision to your approved DPP in accordance with 30 CFR § 550.283 and § 550.285, which will be made effective as of the date this letter is signed.

Please be advised that you remain responsible for decommissioning the subject facility and related pipelines in conformity with all applicable requirements of 30 CFR Part 250 Subpart Q and 30 CFR 556 Subpart I.

If you have any questions or comments concerning this DPP revision approval, please contact Chima Ojukwu at (805)384-6362 or [chima.ojukwu@boem.gov](mailto:chima.ojukwu@boem.gov).

Sincerely,

Necitas C. Sumait  
Regional Supervisor  
Office of Strategic Resources
