# Executive Summary

This Progress Report is prepared in accordance with Invenergy Wind Offshore LLC's (Invenergy; Lessee) Commercial Lease OCS-A 0542 (Lease Area), which requires that Invenergy submit a Progress Report to the Bureau of Ocean Energy Management (BOEM) every six months through Construction and Operations Plan approval. This Progress Report covers engagement during the reporting period of May 1, 2025, to October 31, 2025. In early 2025, federal actions created challenges with respect to regulatory and policy certainty for offshore wind that resulted in Invenergy limiting its development activities, which is reflected in this Progress Report.

Invenergy maintains an Agency Liaison Officer, Tribal Engagement Representative, and Fisheries Liaison to direct agency, Tribal, fisheries, and other stakeholder engagement. During this reporting period, Invenergy met with Native American Tribes and Tribal Nations (Tribes/Tribal Nations) to provide an update on the project status and explain changes to anticipated development activities in the coming months. Outside of monitoring regional fishery management council actions and meetings, Invenergy had minimal interactions with the fishing industry. Agency engagement over the reporting period was focused on fulfilling lease requirements.

Invenergy continued its participation in relevant working groups and subcommittees, as warranted, such as the American Clean Power Association's Maritime and Fishery Subcommittees, the Regional Wildlife Science Collaborative for offshore wind, the New York State Energy Research and Development Authority's Environmental Technical Working Group (TWG), Maritime TWG, and Fisheries TWG.

Invenergy will remain engaged and available to share information and maintain open lines of communication as part of its commitment to transparent and responsible development.

---

## ACRONYMS AND ABBREVIATIONS

BOEM	Bureau of Ocean Energy Management
BSEE	Bureau of Safety and Environmental Enforcement
FCP	Fisheries Communication Plan
Invenergy; Lessee	Invenergy Wind Offshore LLC
Lease	Commercial Lease OCS-A 0542
Lease Area	Lease Area OCS-A 0542
Lessees	Invenergy and the other BOEM leaseholders in the New York Bight
MARAD	Maritime Administration
NATCP	Native American Tribal Communications Plan
NYSERDA	New York State Energy Research and Development Authority
Project	Leading Light Wind in Lease Area OCS-A 0542 and surrounding waters with onshore components
RWSC	Regional Wildlife Science Collaborative
Tribes/Tribal Nations	Native American Tribes and Tribal Nations
TWG	Technical Working Group
WTG	wind turbine generator

---

# 1. Purpose and Background

## 1.1 Purpose

The Bureau of Ocean Energy Management (BOEM) released Draft Guidelines and Instructions for Progress Reports Required by BOEM New York Bight (OCS-A 0537-0544) and Carolina Long Bay (OCS-A 0545-0546) Leases in April 2023. This Progress Report is prepared in observance of the BOEM draft guidelines and in accordance with Commercial Lease OCS-A 0542 (Lease Area), which requires that Invenergy Wind Offshore LLC (Invenergy; Lessee) submit a Progress Report to BOEM every six months through Construction and Operations Plan approval. This Progress Report covers the reporting period of May 1, 2025, to October 31, 2025. As required by Addendum C, Section 3.1.1 of the Lease, this Progress Report documents overall Project progress and engagement activities undertaken with Tribes and parties that may be potentially affected by project activities over the reporting period and plans for continued engagement with Native American Tribes and Tribal Nations (Tribes/Tribal Nations) as well as agencies and other stakeholders.

## 1.2 Lessee Information

The Leading Light Wind Project (Project), proposed to be located within the Lease Area in the New York Bight, is being developed by Forward Power Offshore LLC, which is a 50/50 joint venture of two American companies: lead developer Invenergy and co-developer energyRe LLC. Invenergy and its affiliates have successfully developed over 210 projects, comprising over 34 gigawatts of energy generation capacity. Invenergy has maintained a Project website to inform interested parties and the general public about the Project and provide relevant updates.<sup>1</sup> Co-developer energyRe LLC is an independent New York-based company focused on solving complex challenges and providing clean energy solutions. The team at energyRe LLC has expertise in infrastructure, engineering, and development.

In early 2025, federal actions created challenges with respect to regulatory and policy certainty for offshore wind. Given these challenges, the Project has limited its development activities, which includes external engagement. This progress report describes the engagement with Tribes/Tribal Nations, fishing communities, and agencies that has occurred over the reporting period. Invenergy will remain engaged and available to share information and maintain open lines of communication as part of its commitment to transparent and responsible development.

## 1.3 Lease Description

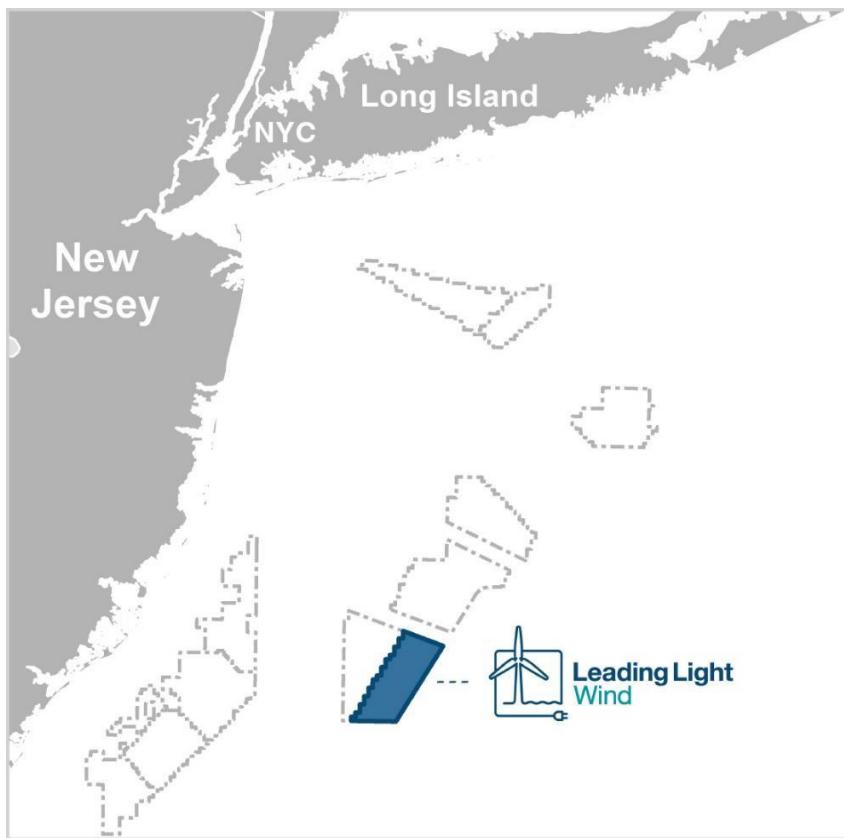

Invenergy executed Commercial Lease OCS-A 0542 in the New York Bight in April 2022. The Lease Area is located approximately 41 statute miles (35 nautical miles, 65 kilometers) east of Atlantic City, New Jersey, approximately 81 statute miles (70 nautical miles, 130 kilometers) south of New York City, New York, and consists of 83,976 acres (339.8 square kilometers) of the United States Outer Continental Shelf. Figure 1 shows the Project Lease Area and other renewable energy lease areas in the vicinity. The Lease Area has a low gradient slope with water depths ranging between approximately 104 and 177 feet (32 and 54 meters).

---

<sup>1</sup> <https://leadinglightwind.com/>

---

The Project will include wind turbine generators (WTGs) in the Lease Area interconnected with inter-array cables, up to two offshore converter stations, and offshore export cables connecting to the onshore electrical grid.

**Figure 1. The Project, Lease Area OCS-A 0542, and Other Active BOEM Lease Areas**

## 2. Tribal Engagement

This section provides a summary of Invenergy's engagement activities with Tribes/Tribal Nations over the reporting period. Below is a list of applicable federally recognized Tribes/Tribal Nations (Appendix A) identified for engagement in Section 5.3.3 of the Lease.

- Absentee-Shawnee Tribe of Indians of Oklahoma
- Delaware Tribe of Indians
- Eastern Shawnee Tribe of Oklahoma
- Mashantucket Pequot Tribal Nation
- Mashpee Wampanoag Tribe
- Mohegan Tribe of Connecticut
- Shawnee Tribe
- Stockbridge-Munsee Community Band of Mohican Indians
- The Delaware Nation

- The Narragansett Indian Tribe
- The Shinnecock Indian Nation
- Wampanoag Tribe of Gay Head (Aquinnah)

## 2.1 Overall Tribal Engagement Progress Since Last Report

Under the direction of its Tribal Engagement Representative (Appendix B), Invenergy had limited engagement with identified federally recognized Tribes/Tribal Nations over the reporting period. This engagement focused on providing a status update on Project development. Table 1 includes a summary of engagement activities conducted with Tribes/Tribal Nations during the reporting period.

**Table 1. Tribal Engagement During Reporting Period**

Date	Tribes/Tribal Nations	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
06/11/2025	All	Invite sent for a virtual conversation with Invenergy on the status of the Project	Meetings on August 7, 2025 and August 8, 2025
08/07/2025	Stockbridge-Munsee Community Band of Mohican Indians	Virtual meeting to provide an update on the Project and opportunity for questions	Continued coordination
08/08/2025	Mashantucket Pequot Tribal Nation	Virtual meeting to provide an update on the Project and opportunity for questions	Continued coordination

## 2.2 Identification of Potential Project Effects Related to Tribal Interests

Table 2 identifies that the Project did not receive input on Potential Project Effects related to Tribal interests and Tribes/Tribal Nations during the reporting period.

**Table 2. Potential Effects and Tribal Input on Project Design or Implementation from Previous Reporting Periods**

Potential Effect	Affected Tribes/Tribal Nations	Effort to Address Potential Effect and/or How the Project Design or Implementation has been Informed
None	N/A	N/A

## 2.3 Tribal Feedback on Transmission Planning

Invenergy did not provide Project updates on transmission planning during the reporting period. Invenergy will continue to engage with the Tribes/Tribal Nations as the Project's design envelope is advanced and refined. The Project's Joint Native American Tribes Communication Plan (NATCP) acts as the framework for future engagements between Invenergy and the Tribes/Tribal Nations.

## 2.4 Anticipated or Scheduled Tribal Engagement Activities

Table 3 includes a summary of anticipated or scheduled engagement activities to be conducted with the Tribes/Tribal Nations during the next reporting period (November 01, 2025 to April 30, 2026), which is expected to be minimal and limited to Project updates and information sharing, as relevant.

**Table 3. Anticipated Tribal Engagement Activities for the Next Reporting Period**

Anticipated Focus of Discussion or Engagement	Tribes/Tribal Nations	Anticipated Coordinated Engagement with Other Lessees
Updated Joint NATCP	All	Invenergy will coordinate with the other New York Bight lessees to provide a revised Joint NACTP with updated contact information
Project update and information sharing, as relevant	All	None; updates will be Project-specific

## 3. Engagement with Potentially Affected Parties

During the reporting period, Invenergy limited outreach to Potentially Affected Parties, including federal and state agencies, local organizations, fisheries, and other stakeholder groups. Invenergy maintains a designated Agency Liaison Officer and Fishery Liaison (Appendix B) for the Project. The Project's Agency Communication Plan was revised in March 2023, and the Project's Fisheries Communication Plan (FCP) was revised in June 2025. The Agency Communication Plan<sup>2</sup> and FCP<sup>3</sup> are posted to the Project website (Appendix C).

### 3.1 Overall Engagement Progress with Potentially Affected Parties Since Last Report

#### 3.1.1 Summary of Federal Agency Engagement Activities

Invenergy has continued engagement with BOEM to maintain communications about Lease requirements and continue information sharing. Invenergy held two meetings with BOEM during the reporting period and had one meeting cancelled due to the lapse in federal appropriations and subsequent government shutdown (October 8, 2025).

<sup>2</sup> [Agency Communication Plan](#)

<sup>3</sup> [Fisheries Communication Plan](#)

Table 4 provides a summary of engagement activities conducted with federal agencies during the reporting period.

**Table 4. Engagement Activities with Federal Agencies During the Reporting Period**

Date	Federal Agency	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
06/12/2025	BOEM	Submitted updated FCP	Update the FCP on the Project website
06/18/2025	BOEM	Monthly coordination meeting; discussed updated FCP and Progress Report	Continued coordination
06/24/2025	BOEM	Submitted 508-compliant FCP and updated the FCP on the Project website	None
06/24/2025	BOEM	Submitted 508-compliant Progress Report for the reporting period November 1, 2024 to April 30, 2025 and added the report to the Project website	None
07/02/2025	Maritime Administration (MARAD)	Discussed staffing changes at MARAD	None
07/30/2025	BOEM	Monthly coordination meeting; provided update on Tribal engagement	Continued coordination; Shifted to quarterly meetings
08/01/2025	Bureau of Safety and Environmental Enforcement (BSEE)	Resubmitted 2024 Annual Safety Report for Project via TIMS	BSEE accepted report
10/24/2025	National Oceanic and Atmospheric Administration (NOAA), National Marine Fisheries Service (NMFS)	Submitted final report for the Incidental Harassment Authorization renewal to confirm no high-resolution geophysical surveys were conducted under the authorization	None, unless additional surveys are conducted in the future

### **3.1.2 Summary of State Agency Engagement Activities**

Due to continued challenges to the offshore wind industry, in November of 2025, Leading Light Wind filed a formal notice to the New Jersey Board of Public Utilities (BPU) outlining that the project is not able to move forward with accepting the Board Order originally awarded in January 2024 citing economic, supply chain and regulatory challenges. Invenergy did not have other engagement with state agencies during the reporting period, as shown in Table 5.

---

**Table 5. Engagement Activities with State Agencies During the Reporting Period**

Date	State Agency	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
None	None	N/A	N/A

### 3.1.3 Summary of Fisheries Engagement Activities

Invenergy limited its external fisheries engagement to monitoring and participating in regional fishing industry meetings, as appropriate. Invenergy remained available to share information and maintain open lines of communication as part of its commitment to transparent and responsible development. Table 6 provides a summary of fishing community engagement activities conducted during the reporting period.

**Table 6. Fisheries Engagement Activities During the Reporting Period**

Date	Stakeholder(s)	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
06/12/2025	BOEM, fisheries	Updated FCP	Future updates, as necessary
06/27/2025	Massachusetts Fisheries Working Group on Offshore Wind Energy	Status of industry activity from New York Bight to Gulf of Maine, Regional Fishery Compensation Fund updates, and review of Responsible Offshore Science Alliance regional research project solicitations	Continue quarterly participation as necessary

### 3.1.4 Summary of Other Engagement Activities

Table 7 provides a summary of engagement activities conducted with other stakeholders during the reporting period.

**Table 7. Engagement Activities with Other Stakeholders During the Reporting Period**

Date	Stakeholder(s)	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
06/06/2025	Regional Wildlife Science Collaborative (RWSC)	Industry caucus meeting; general updates	Continued participation

Date	Stakeholder(s)	Focus of Discussion or Engagement and Meeting Objective(s)	Follow-up Actions, Activities, Outcomes
06/25/2025	New York State Energy Research and Development Authority (NYSERDA) M-TWG	Provided state and member updates, received an update on the Autonomous Vessel Uses in Offshore Wind Studies, and discussed shipyard facilities, trends, and opportunities	Continued participation
08/15/2025	E-TWG	Introductions between the E-TWG team and new Invenergy lead	Continued coordination
09/10/2025	RWSC	Annual funding strategy meeting	Monitor
10/02/2025	RWSC	Changes to acoustic monitoring network	Continued coordination
09/19/2025	Wildlife Conservation Society	Update on the plan to retrieve data and redeploy acoustic telemetry buoy within the Project area to ensure no operational conflicts	Monitor
10/23/2025	Alliance for Clean Energy	Fall Conference: Clean energy leaders, policymakers, and industry experts discussed emerging trends and opportunities across New York's renewable energy landscape; and held offshore wind workshop to strengthen messaging	Continued participation

## 3.2 Potential Effects and Input from Parties on Project Design or Implementation

Table 8 identifies that the Project did not receive input on potential Project effects related to federal, state, and local parties and other stakeholders on Project design and implementation during the reporting period.

**Table 8. Potential Effects and Input from Parties on Project Design or Implementation During the Reporting Period**

Potential Effect	Affected Party	Effort to Address Potential Effect and/or How the Project Design or Implementation has been Informed
None	N/A	N/A

### 3.3 Anticipated or Scheduled Engagement Activities

The Project is currently focused on meeting obligations under our Lease; specific planned engagement activities are described in the sections above. Invenergy will maintain open lines of communication as part of our commitment to transparent and responsible development.

**Table 9. Anticipated or Scheduled Engagement with Parties for the Next Reporting Period**

Anticipated Focus of Discussion or Engagement	Party	Anticipated Coordinated Engagement with Other Lessees
Lease obligations	BOEM	None
Project updates, as warranted	All	None

## 4. Survey Plan Activities

Invenergy does not anticipate that the Project will conduct surveys during the next reporting period (November 01, 2025 to April 30, 2026).

**Table 10. Completed Survey Plan Activities**

Type of Survey	Survey Activity Date or Proposed Date	Purpose	Location Description
None	N/A	N/A	N/A

## 5. Coordinated Engagement

Invenergy continues to participate in coordinated engagement efforts with other Lessees in the New York Bight, as appropriate. During the reporting period, this included coordination on an updated joint NATCP with updated contact information for Tribal Engagement Representatives (in progress). Invenergy also continues to work with the wider offshore wind industry through trade associations, including American Clean Power, to assess relevant emerging policy and directives and coordinate on appropriate response strategies.
