

Appendix N – Air Quality Analysis

Since the initial preparation of this report (September 2020) amendments have been made to the Project, which have not been reflected in the Air Quality Analysis:

- Lease OCS-A 0498 has subsequently been split into two parts, with the southern portion of former OCS-A 0498 lease now designated Lease OCS-A 0532.
- The Project is no longer proceeding with the Higbee/Ontario interconnection scenario in Atlantic City, as noted in Volume I.
- The Project is no longer proposing to use helicopters during construction or operations and maintenance activities.

Because the project design envelope was reduced (not increased), the air emissions analysis was not changed.
