

Sunrise Wind Offshore Wind Farm

Sunrise Wind Project Overview

The Sunrise Wind Project consists of:

- Up to 122 offshore wind turbines and associated foundations
- One offshore converter station (OCS-DC)
- Inter-array cables
- One onshore converter station (OnCS-DC)
- An offshore transmission cable making landfall on Long Island, New York, in the Town of Brookhaven and an onshore interconnection cable to the Long Island Power Authority (LIPA) Holbrook Substation.

The Sunrise Wind Lease Area (OCS-A 0487) covers approximately 86,823 acres (35,136 hectares) and is located in federal waters approximately 18.9 statute miles (mi) (16.4 nautical miles [nm], 30.4 kilometers [km]) south of Martha's Vineyard, Massachusetts, approximately 30.5 mi (26.5 nm, 48.1 km) east of Montauk, New York, and 16.7 mi (14.5 nm, 26.8 km) from Block Island, Rhode Island. The offshore export cables would be buried below the seabed in federal and New York State waters.
