

Task Force Discussion

- **Opportunity for Questions and Comments**

Public Input - Day One

We appreciate your participation and BOEM invites your feedback in several ways:

- Quick polls to get informal read on some of the topics under discussion
- Add your thoughts to the Q&A for BOEM's ongoing consideration
 - Upvote compelling comments or questions
- Invite brief comments within allotted time (@50 minutes)

Important points to keep in mind:

- Today is just the start of an ongoing conversation | we are very early in the process
- BOEM to provide multiple opportunities for ongoing public input – both via informal and formal public comments through the Federal Register

All of your comments – whether in the registration forms, via the Q&A or voiced during these public input sessions - are helpful to BOEM as it moves through this current phase
