BOEM's Marine Minerals Information System:

Learn more about BOEM's new [Marine Minerals Information System](#) (MMIS), which modernizes access to offshore sediment data, and is a major step forward in building a [National Offshore Sand Inventory](#). The MMIS includes more than 30 years of BOEM-funded geological and geophysical research data, as well as data from more than 40 partners in federal, state and local government, academia and other entities.
