### **Please Note:**

This is the second Gulf of Mexico Region-wide sale in the 2017-2022 Five-Year Program. Terms and conditions for GOM Region-wide Sale 250 are similar to previous sales held in the Gulf of Mexico, with the most recent being GOM Region-wide Sale 249, held in August 16, 2017. The following are noteworthy matters for your attention:

### **Change in Area Offered**

**The area offered is the combined Western, Central, and Eastern Planning Areas excluding any areas under moratoria or deferred.**

### **Change in Royalty Rate**

**Bidders are advised that the royalty rate has been changed to 12.5% for oil and gas on blocks with water depths of 0-200 meters. Blocks in all other water depths will remain at 18.75%.**

### **Change to Bid Opening Procedure**

The bid opening at 1201 Elmwood Park Blvd., New Orleans, LA, will not be open to the public. Instead, the bid opening will be available for the public to view in real-time on BOEM's website at [www.boem.gov](http://www.boem.gov) via video live-streaming beginning at 9:00 a.m. on the day of the sale. The use of live-streaming to announce bids is being implemented to provide greater access to a wider national and international audience while ensuring the security of BOEM staff. BOEM will also post the results on its website after bid opening and reading is completed.

### **New Flower Garden Banks National Marine Sanctuary (FGBNMS) Expansion ITL**

Bidders are advised that on June 10, 2016, the National Oceanic and Atmospheric Administration published a Notice of Availability (NOA) in the *Federal Register* of a Draft Environmental Impact Statement (Draft EIS) analyzing the proposed expansion of the Flower Garden Banks National Marine Sanctuary (FGBNMS or Sanctuary) boundaries, based on the recommendation contained within the Sanctuary Expansion Action Plan of the FGBNMS Management Plan (April 2012). [81 Fed. Reg. 37576 (June 10, 2016); <https://www.gpo.gov/fdsys/pkg/FR-2016-06-10/pdf/2016-13661.pdf>].

Bidders are advised that certain activities related to oil and gas exploration and development are already prohibited within a portion of several of the banks recommended for expansion, as these areas have been designated "No Activity Zones" by BOEM (See Stipulation 1: Topographic Features). These restrictions are also explained in NTL No. 2009-G39: "Biologically Sensitive Underwater Features and Areas," for the Central and Western planning areas of the OCS in the Gulf of Mexico.

### **Updated Electronic Funds Transfer (EFT) Instructions**

Bidders are advised that the EFT instructions have been updated. Please note important payment information on the new ONRR Payment Information webpage at <http://onrr.gov/ReportPay/payments.htm>. Please refer to the following website for complete information: <http://www.boem.gov/sale-250/>.

### **Geophysical Data and Information Statements**

This Final NOS Package includes updated information for bidders regarding the submission of Geophysical Data and Information Statements (GDIS). Every bidder submitting a bid on a block in the GOM Region-wide Sale 250, or participating as a joint bidder in such a bid, must submit at the time of bid submission a GDIS in a separate and sealed envelope, identifying any proprietary data, reprocessed speculative data and/or any Controlled Source Electromagnetic, Gravity or Magnetic data, or other information used as part of the decision to bid or participate in a bid on the block. **Please note: The GDIS Information Table may be submitted digitally on a CD or Digital Video Disc (DVD) as an Excel Spreadsheet.**

**Bidder/Lessee Notice Obligations Related to Criminal/Civil Charges and Offenses, Suspension or Debarment**

Bidders and/or Lessees are advised to refer to the GOM Region-wide Sale 250 Information to Lessees document, Section (10). This ITL clause reminds bidders/lessees that it is incumbent upon them to notify BOEM of any conviction that may result in a suspension and/or debarment prohibiting them from entering into a contract with the United States.
