(a) Whether the collection of information is necessary for the proper performance of the functions of the BIA, indicating whether the information will have practical utility;

(b) The accuracy of the BIA’s estimate of the burden (including the hours and cost) of the proposed collection of information, including the validity of the methodology and assumption used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

The Office of Management and Budget has up to 60 days to approve or disapprove the information collection but may respond after 30 days; therefore, comments submitted in response to this notice should be submitted to OMB within 30 days in order to assure their maximum consideration. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Before including your address, phone number, e-mail address or other personally identifiable information, be advised that your entire comment including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so. We do not consider anonymous comments. All comments from representatives of businesses or organizations will be made public in their entirety.

Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless a currently valid OMB control number is displayed. You may request copies of the information collection forms and our submission to OMB from the person listed in FOR FURTHER INFORMATION CONTACT section.

III. Data

Title: Verification of Indian Preference for Employment in the BIA and IHS, 25 CFR 5.

Type of Request: Extension of a currently approved collection.

Description of respondents: Qualified Indians who are seeking preference in employment with the BIA and IHS. Approximately a total of 5,000 applications for preference in employment are received annually by the BIA field offices.

Frequency: On occasion as needed.

Estimated completion time: The average burden of submitting an Indian Preference Form is 30 minutes including time for reviewing instructions, searching data sources and assembling the information needed.

Total Annual Burden: 5,000 × 30 minute = 2,500 hours.

Estimated cost: There are no costs to consider, except postage and the cost of duplicating the original verification form. The form will be used by an applicant to seek documentation of Indian descent or membership from either a tribal official or the BIA.

Sanjeev ‘Sonny’ Bhagowalia, Chief Information Officer—Indian Affairs.

Minerals Management Service

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice; Correction.

SUMMARY: The MMS published a Notice in the Federal Register on Friday, April 18, 2008 (73 FR 21152), announcing proposed areas of the OCS for limited alternative energy leasing and requesting indications of competitive interest in such proposed lease areas. That original Notice also requested public comment on the areas proposed for limited leasing. This correction Notice corrects the table in the original Notice identifying the proposed lease areas for alternative energy resource data collection and technology testing activities on the Outer Continental Shelf (OCS).

DATES: This correction is effective immediately upon publication of this Notice. The 30-day and 60-day comment periods identified in the original Notice shall be deemed to commence upon the publication of this correction Notice.

Technical Correction

The table provided in our original notice dated Friday, April 18, 2008, incorrectly identified the boundaries of some proposed lease areas. The table below accurately describes the areas of proposed leasing for alternative energy resource data collection and technology testing activities on the OCS. The locations of proposed OCS alternative energy limited leasing are described as follows:
