III. Proposed Prevailing Wage Rates

The table below provides the current and proposed prevailing wage rates for construction occupations on Guam, as provided by the GDOL to USCIS on January 10, 2010. The currently approved construction wage rates, which were based on 2007/2008 BLS data, will remain in effect until any new prevailing wage rates are approved by USCIS. USCIS intends to publish the prevailing wage rates it approves in the same Federal Register notice that announces the approved system for determining prevailing wages, working conditions, and availability of U.S. resident workers.
