PERMIT NO. 9821-DB002

DATE ISSUED: February 18, 1999

This permit is issued to BP Exploration (Alaska) Inc for the disposal of wastewater resulting from oil and gas production and associated support facilities. The waste will be disposed of by subsurface injection into the Prince Creek/Ugnu and lower Sagavanirktok Formations through either of two injection wells. These wells are located on a manmade gravel island named Seal six miles offshore of Point Storkersen in the Alaskan Beaufort Sea, Latitude 70° 29' 29" and Longitude 148° 41' 46". This permit is subject to the conditions contained in Underground Injection Control Permit Number AK-1I002-A, which are incorporated herein by reference.

This permit is issued under provisions of Alaska Statutes 46.03, the Alaska Administrative Code as amended or revised, and other applicable State laws and regulations. Any rights or privileges inuring to the benefit of the Environmental Protection Agency in the Underground Injection Control permit, including any right to enter, inspect, sample, and have access to records, also inure to the benefit of the Department. Any records or other information filed with the Environmental Protection Agency pursuant to the Underground Injection Control permit must be contemporaneously filed with the Department. All reporting and notification required by this permit shall be submitted to the ADEC office listed above.

This permit is effective on February 18, 1999 and expires February 17, 2004. It may be terminated or modified in accordance with AS 46.03.120.
